Section 28-4652

A manufacturer or a third party may not require a dealer to grant the manufacturer, the third party or any person acting on behalf of the manufacturer or third party direct or indirect access to the dealer's dealer data system. Instead of providing a manufacturer or third party with access to the dealer's data system, a dealer may submit or push data or information to a manufacturer or third party through any widely acceptable electronic file format or protocol that complies with the star standards or other generally accepted standards that are at least as comprehensive as the star standards.

Section 28-4653

A. A third party may not do any of the following:

1. Access, share, sell, copy, use or transmit protected dealer data without prior express written consent.

2. Engage in any act of cyber ransom.

3. Take any action by contract, technical means or otherwise to prohibit or limit a dealer's ability to protect, store, copy, share or use protected dealer data, including all of the following:

(a) Imposing any fee or other restriction on the dealer or an authorized integrator for accessing or sharing protected dealer data or for writing data to a dealer data system, including any fee on a dealer that chooses to submit or push data or information to the third party as prescribed in section 28-4652. For the purposes of this subdivision, "unreasonable restriction" includes:

C. This section does not prevent a dealer, manufacturer or third party from discharging its obligations as a service provider or otherwise under federal, state or local law to protect and secure protected dealer data or to otherwise limit those responsibilities.

D. Unless a dealer gives prior written consent, a manufacturer may not access, share, sell, copy, use or transmit or require a dealer to share or provide access to protected dealer data beyond the required manufacturer data and may use any required manufacturer data obtained from a dealer data system for the purposes listed in section 28-4651, paragraph 8.

E. A manufacturer may not engage in an act of cyber ransom or take an action by contract, technical means or otherwise to prohibit or limit a dealer's ability to protect, store, copy, share or use protected dealer data, including actions described in subsection A, paragraph 3, subdivision (b) of this section. A manufacturer or a manufacturer's selected third party may not require a dealer to pay a fee for the sharing of required manufacturer data if the manufacturer both:

1. Requires a dealer to provide required manufacturer data through a specific third party that the manufacturer selects.

2. Does not allow the dealer to submit the data using the dealer's choice of a third-party vendor and both of the following apply:

(a) The data is in a format that is compatible with the file format required by the manufacturer.

A dealer bringing a cause of action against a manufacturer for a violation of this section has the burden of proof.

G. Notwithstanding subsection D of this section and except as provided in section 28-4655, this article does not restrict or limit a manufacturer's right to obtain required manufacturer data, use required manufacturer data for the purposes prescribed by subsection D of this section or use or control data that is proprietary to the manufacturer, created by the manufacturer, obtained from a source other than the dealer or that is public information.

Section 28-4654

A. A dealer data vendor shall:

1. Adopt and make available a standardized framework for the exchange, integration and sharing of data from dealer data systems with authorized integrators and the retrieval of data by authorized integrators using the star standards or a standard that is compatible with the star standards.

2. Provide access to open application programming interfaces to authorized integrators. If the application programming interfaces are not the reasonable commercial or technical standard for secure data integration, the dealer data vendor may provide a similar open access integration method if that method provides the same or better access to authorized integrators as an application programming interface and uses the required standardized framework.

B. A dealer data vendor and authorized integrator:

1. May access, use, store or share protected dealer data or any other data from a dealer data system only to the extent allowed in the written agreement with the dealer.

2. Must make any agreement relating to access to, sharing or selling of, copying, using or transmitting protected dealer data terminable on ninety days' notice from the dealer.

3. On notice of the dealer's intent to terminate the agreement, in order to prevent any risk of consumer harm or inconvenience, must work to ensure a secure transition of all protected dealer data to a successor dealer data vendor or authorized integrator, including:

- (a) Providing access to or an electronic copy of all protected dealer data and all other data stored in the dealer data system in a commercially reasonable time and format that a successor dealer data vendor or authorized integrator can access and use.

5. Must allow a dealer to audit the dealer data vendor or authorized integrator's access to and use of any protected dealer data.
